Nowadays a lot of schools in our country have different museums. In my opinion, it is really important for every school to have them. Different museums have different themes. For example, it can be about World War II or about history of own region, or about modern inventions.

In my view, museums should be big, clean and light with special equipment. There should be different things that can be interesting for both adults and teens.

Overall, there is a problem now. Many people believe that museums are helpless. They think so because of the Internet. There you can find all you need without going out from the house, it is really fast and convenient for the people. Also they consider that there they can't learn anything new. But it is not so.

I guess that museums appreciate a lot of new interesting things that people can't know without them. There you can "touch" the history of your country, region or even your own family. So, my grandmother knew the history of our house, who lived here before us and it came to be really interesting.

To sum up, it would be fair to say that museums are very important things in the lives of all people. With the help of them we can learn a lot of new.

Dear school authorities, we have a big ~~historical~~ historical problem. Our museum that contains a large amount of ~~inform~~ information, that is very interesting is not used at all. And we want to make it as interesting as possible.

Our school museum is not very big, about 60 squaremeters, but it is very interesting. Our oldest piece of the museum is a money collection that is about 150 years old and our newest is an army medal from the 1970-s. That means that the things in the museum, are ~~pr~~ pretty old, but nobody is interested in it although it has over 100 things, that are very interesting. But what I understood, is that the museum isn't used effectively enough to be interesting and exciting. The first reason why the museum isn't used effectively, is that the location of the museum is in the corner of the building and it is locked with a metal door. And that scares all people, because they think that this is dangerous. The second reason is that the teachers don't tell about the museum and almost no one knows about it. Our classmates recommend to change the door to a light door, that is beautiful and make to the students feel excited to go to the museum. And the second recommendation is to talk about the museum more. Especially the teachers. The students have to know what is in their school.

To conclude, I hope you will find this message and help us to make our school museum as popular as possible. Thank you for your understanding.

I want to speak about Victory Day and how I celebrate it with my family.

People always celebrate this day in Victory's park with their family or friends.

I also spend time with my family, with mother, grandmother and my little sister.

We always buy flowers and bring it to home. And we like to cook something in Victory Day as well, it's our family tradition, and we all love to do this.

I think Victory Day is a very important day in our life. That's all I wanted to say.
